

Dick, I'm forwarding some photos sent to me by Bill Carter taken at Minot and vicinity in 1962. Unfortunately, neither Bill or Jim Porterfield could recall the names of the other GSS participants.

James,

Bill Carter sent these photos to me recently, which include you. Can you ID any of the other GSS folks in the photos or provide any other details?

Garrett

Garrett,

Attached are some pictures of 1381st astro teams TDY at Minot AFB, in 1962. We stayed in the upstairs of a house in the small town of Velva. We had two observers (Airman Roy and me, two recorders, (Airman Porterfield and ?) and two computers (? and ?) - my memory for names is very poor. We went to a July 4th party with the locals. And I took some pictures of missile site under construction.

Bill Carter
